

Start providing Continuous Glucose Monitors. GEMCO Medical makes it easy as 1-2-3!

Continuous glucose monitors (CGMs) track glucose levels 24 hours a day and help patients stay in range without fingersticks. CGMs are becoming increasingly popular among people with diabetes, looking for better ways to manage their glucose levels. Many insurances, including Medicare*, cover CGM technology.

GEMCO Medical is an authorized and accredited distributor of CGM systems from Abbott, Dexcom and Medtronic. We offer over 30 years of DME industry knowledge, training, support, drop-ship programs, and a dedicated account team to ensure your success!

Easier on the patient and easy to supply!

1

Verify patient's insurance for eligibility criteria and ensure all documentation requirements are on file.

2

Place order with GEMCO Medical via Brightree, electronic data interchange (EDI), website, phone, fax, or email.

3

Product is drop-shipped to the patient's home address within 24 hours with tracking & proof of delivery once it arrives.
