

# Job Aid · Applying Unapplied Payments

Select any of the section titles listed below to go directly to that section.

#### 

## Introduction

This job aid is intended for Brightree Users responsible for billing and/or payment processing in Brightree. Prerequisite Skills include

This job aid prepares you for the following tasks:

- Setting up new Payment Reasons (Manager or Admin)
- Locating Patient Invoices for payment application
- Applying the Unapplied Payments
- Understanding the reporting options for Unapplied payments

## **Applying Unapplied Payments**

Once the appropriate reasons are set up, you are ready to begin applying Unapplied Payments.

Beside the payment you wish to apply, click the Apply Payment icon.

Use the icons to manage and apply payments:

Edit the invoice.

Apply the Payment. You will notice that some of the Apply Payment icons are grayed out and inaccessible. These are payments that have been posted.

## X Delete the Payment

Note: Unapplied Payments cannot be deleted once they are posted. However, adjustments to Unapplied Payments, including Reversals, can be made once Unapplied Payments have been posted. This process is covered in another job aid and/or presentation.

## **Report Options for Unapplied Payments**

The following reports have been updated with Unapplied Payment reporting capabilities:

 Deposits Summary Report - Deposit reporting now breaks out all Unapplied Receipts included in the deposit

Note: Unapplied Payments entered by using the Payments on Account feature will post when the associated System Deposit is posted.

 AR Aging Reports - All AR Aging reports will reflect the application of Payment type Applied Payment and these amounts will reduce the aging balances by the appropriate amounts.

Note: Unapplied Payment Balances are not included in the AR Aging Reports.

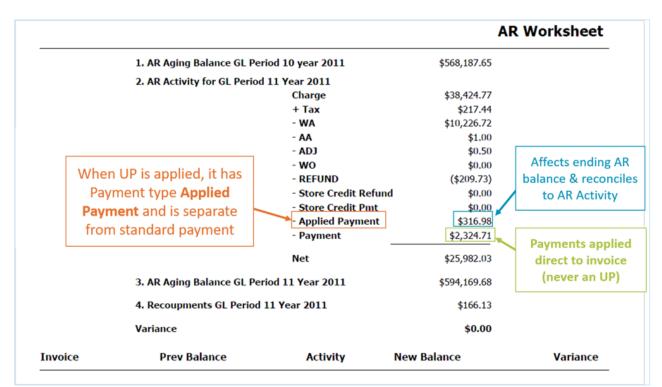

- **AR Activity Reports** Both AR Activity reports will include the following:
  - A new Applied Payment column has been added to the AR Activity Report output to reflect the reduction of AR by the application of the new Applied Payments Payment Type
  - The Payment section of the Report Criteria will allow for the selection of Payment Type Applied Payment

Note: Unapplied Payment Balances are not included in the AR Activity Reports.

- Other Reports In addition to the above, all reports that have options for delimitation by Payment Type, include the option for Payment Type Applied Payments, and any reports that deal with Payments, such as Ad Hoc Reports, Cash Activity, etc.
- AR Worksheet The AR Worksheet report will have a new line item to reflect the total of all Applied Payments. The processes for using the AR Worksheet in the month end balancing process should remain unchanged as these payments were previously recorded in the Payments section of this report.

A further breakdown of the AR Worksheet is displayed below:

The following reports provide detail related to the utilization of both Unapplied Payments and UP spend down via Applied Payments and will allow for the tracking and audit from a General Ledger perspective. The GL Detail report can also be used to track and audit Applied Payment Adjustments:

- Patient Account History The Patient Account history will differentiate between standard payment and applied payments as well as specifically reflect the Applied Payment reason
- Patient Statement Patient Statements will differentiate between standard payment and applied payments as well as specifically reflect the Applied Payment reason
- GL Detail With the addition of the new UP GL account, you can now identify all UP adjustments transactions using the GL Detail report. See sample on following page.
