We are **YOU** - Let Us Help!

We Understand Your Challenges!

Rain8 is aware of the challenges faced by DMEs.

Steadily rising costs and plummeting reimbursements are squeezing the profits of DMEs.

We are aware of so-called "value" products with promises to increase your initial profits.

But we know that poor products lead to poor compliance, frustrated customers and lost follow-on refill sales.

We aim to solve this problem!

"This product has completely changed our DME business in South Georgia; it will do the same for yours!"
