

Get Answers to Questions on your Chronic Cough

There are things your doctor needs to know about your respiratory symptoms and issues in order to assess their extent and impact on your health. Answer the questions below and share them with your doctor.

- Y N Have you been diagnosed with COPD?
- Y N Do you have a productive (mucus) daily cough?
- Y N Have you had recurrent chest infections requiring antibiotic treatment?
- Y N Have you had a CT scan (a type of x-ray) of your chest within the last 10 years?
- Y N Have you had any exacerbations (or complications) requiring hospitalizations?
- Y N Have you been prescribed any of the following Airway Clearance Techniques?

Check all that apply

- | | |
|---|--|
| <input type="checkbox"/> Flutter Valve | <input type="checkbox"/> Acapella® |
| <input type="checkbox"/> Aerobika® | <input type="checkbox"/> Hand CPT |
| <input type="checkbox"/> Huff Coughing | <input type="checkbox"/> Postural Drainage |
| <input type="checkbox"/> Oscillation Vest | |

Maybe it's more than just COPD?

If you answered yes to any of the above questions, talk to your doctor about being screened for BRONCHIECTASIS and the options you have for Airway Clearance Therapy.
